TO CONSUMERS OF

PICKLES.

BELIEVING that the Public have become tired of purchasing Pickles in Packages, bulging, leaking cases, fifty per cent. less than represented, have recommenced putting up, in addition to our previous second size for, an article which after careful trial by WM. UNDERWOOD & CO. is entirely PICKLING, and free filling into glass jars, which are boldly stamped in the glass, with their exact contents in ounces—this giving the consumer to verify their truth.

These Extra Pickles are put up with every regard to style, quality and flavor, and will be sold at fully remunerating prices.

We have made no change in our manner of Growing Pickles, never having resorted to any deleterious means to attain this end. The Cider Vinegar which we use is made from sound fruit, and entirely free from Vitriol or any other mineral acid, which is not the case with that used in some brands of English Pickles found in this country.

STANLEY HOUSE,

WATER STREET, AUGUSTA, ME.

W. G. RICKER would respectfully announce to the Traveling Public, that he has re-opened the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary to entitling it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.

Business men, or persons traveling for pleasure, will find that this House affords every convenience of luxury that can be desired, and the Proprietor intends to spare no pains to make it in every respect a second to none in the State.

Hostlers for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly refitted, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the E. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful Hostlers.

By strict personal attention to the comfort of his guests the proprietor hopes to receive a liberal share of patronage.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE.

TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, and Seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and around each case.

Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 167 Prince Street, (few blocks West of Broadway) New York, from 11 o'clock in the morning till 2, and from 4 o'clock till 8 in the evening, (Sundays excepted.)

TRIESEMAR No. 1.—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c. In all physical impediments varied like magic before its influence, thus rendering it alone invaluable to those entering the marriage state.

TRIESEMAR No. 2.—Entirely eradicates all traces of those disorders which copaiba and cubebs have so long been thought an antidote for to the ruin of the health of a great portion of the population.

TRIESEMAR No 3—Is the great European remedy for that class of disorders which unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which, all else, Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in this cases and divided in separate doses, as administered by Valpeau, Lallemar, Roux, Record, &c.* Price $5 each, or four cases in one for $9, which saves $3 cash in advance, whereby there is a saving of $3.

Special arrangements have been made with the various Expresses, the nine-dollar cases of the Triesemar, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three-dollar case sent as usual, but at free of carriage.

THE

NEW YORK WEEKLY TIMES,

A LITERARY AND NEWS JOURNAL, FOR THE FAMILY AND FIRESIDE.

The Cheapest Newspaper in the United States.

Upon the termination of the Presidential contest, now close at hand, the proprietors of the New York Weekly Times intend to introduce various and extensive changes in its character, which will render it still more attractive to the great mass of the people of the United States. Its columns will then be less exclusively occupied by political news and discussions, and will be much more largely devoted to LITERATURE, GENERAL NEWS, and interesting MISCELLANEOUS READING. It will be made emphatically and especially a

NEWSPAPER FOR THE FAMILY AND THE FIRESIDE,

Containing Literary Tales, Original and Selected, Biographical Notices, Sketches of Character, Letters from Abroad, Anecdotes, and generally whatever will be most entertaining and most instructive to the great mass of Newspaper Readers.

Among the conspicuous attractions of the Weekly Times will be

AN ORIGINAL NOVEL,

By a Popular American Author, written expressly for its columns, and abounding in interest and merit. This will be published in successive numbers, commencing about the 15th of November, and will probably be completed in six months.

The *Weekly Times* will also contain a series of

LETTERS FROM EUROPE AND THE EAST,

By one of the ablest and most Popular writers in the United States, embracing Notes of Incident, Adventure and Observation in Europe, Egypt, Arabia and the Holy Land, and forming one of the most interesting series of Foreign Sketches ever published in this country.

Besides these continuous articles, prepared expressly for the New Series of the *Weekly Times*, it will contain every week, a great amount of

Original Correspondence, Domestic and Foreign.
Miscellaneous Literary Anecdotes and Sketches.
Notes of Scientific Discovery.
Biographical and Critical Notices.
Reviews of New and Valuable Books.
Choice Poetry, Original and Selected, &c. &c.

In short, it is the design of its proprietors to spare neither expense nor labor in making it the most INTERESTING and desirable Miscellaneous FAMILY NEWSPAPER in the United States.

In addition to its Literary and Miscellaneous character, the *Weekly Times* will give, in a clear and condensed form,

All the News of the Day,

From all quarters of the world, and in all departments of activity,—embracing

AGRICULTURE, COMMERCIAL AND FINANCIAL INTELLIGENCE.

Prepared expressly for its columns, and for the use of the trade in all parts of the country who wish to be kept informed upon all these topics.

THE DOINGS OF CONGRESS,

With a synopsis of all important documents, valuable speeches, and the proceedings of the several State Legislatures.

FOREIGN NEWS:

As given in the letters of Special Correspondents, and in Extracts from the Newspaper Press of England and the Continent—and

THE MISCELLANEOUS NEWS

Of Accidents, Crimes, Disasters, Personal Movements, &c., both at home and abroad.

The *Weekly Times* will also contain Editorial Articles, discussing all the leading events of the day, in such a manner as shall prove to be most widely useful and instructive. In its political department the *Times* will be

WHOLLY INDEPENDENT OF ALL POLITICAL PARTIES.

Speaking freely and boldly its own Opinions—condemning Public men and Public bodies for whatever, may be wrong, and upholding and sustaining them in whatever may tend to the advancement of the public good. It will advocate equal and exact justice to all men, the preservation of the Union upon the principles of the Constitution, and the improvement of the condition of all classes by Education, Morality and Religion. It will wage no war upon any section, nor countenance any infringement of the constitutional rights of any portion of our common country. But it will also resist all attempts to subordinate to the general good to sectional ambition, or to undermine the great principles of human Liberty which form the basis and foundation of our Republican Institutions. It will be moderate but firm in its tone, seeking to convince rather than intimidate, respectful towards those who differ from it, conservative in its tendency, and devoted zealously and steadily to the elevation and advancement of the people.

The *Weekly Times* will be printed upon handsome paper, in clear type and in elegant style—each number containing eight pages or forty-eight columns, each one containing every week a larger amount of choice Reading and News than can be obtained elsewhere at the same rate. It is designed to make it at once

The best and Cheapest Family Newspaper in the United States.

It will be sent to Subscribers by mail at the following rates:—

One Copy one Year, for $2,00
Five copies one Year, for 8,00
Twenty-five copies one Year, for 20,00

Each package must invariably in every case be sent to *one name and address*. Any Postmaster, Clerk, or other person, who may send us TEN or more subscribers on the above terms, and who will receive the package for distribution among the subscribers, shall receive an *extra copy*. Additions may at any time be made to Clubs by the party in whose name the Club stands, and on terms of first remittance.

Postage on the *Weekly Times* is

To Canada, payable in advance, ...23 cts. a year.
Within the State, ... 13 cts. a year.
Within the United States, ... 20 cts. a year.

The *NEW YORK DAILY TIMES* is a very large, first-class Daily Paper, containing all the News of the Day, &c. &c., which is sent to Subscribers by mail at SIX DOLLARS PER ANNUM.

The *NEW YORK SEMI-WEEKLY TIMES*, published twice a week, and containing all the leading matter of the Daily, is sent to Subscribers at the rate of THREE DOLLARS per annum. Two copies to one address for FIVE DOLLARS.

Payment in all cases is required invariably in advance; and no papers will ever be sent until the receipt of the money.

All letters inclosing money, or on business of any kind with the Office, is to be addressed to the Publishers,

RAYMOND, WESLEY & CO.,

No. 128 Nassau-st., New York.

New York, Oct. 1, 1856. 4aw2t

Thrice-Weekly

Kennebec Journal for 1857.

DURING the approaching session of the Legislature, the undersigned will continue the publication of the *Thrice-weekly Journal*, being the XIIIth Volume of the same.

As is well known, the chief purpose of this paper is to afford the public of Maine a faithful account of the deliberations and actions of its Legislature. With the reports of the Legislative doings, we intend also to publish the proceedings of Congress, as they are given in the best reports from Washington.

As the renewal of all the Bank Charters in the State will come before the Legislature this Winter, the debates and proceedings will be of peculiar interest to all who are interested in Bank property.

The numerous lines of railroad which now traverse the State in all directions, will enable every large proportion of our subscribers to receive their papers a few hours after their publication. This fact renders a subscription to the Thrice-Weekly more desirable and satisfactory than in former years.

The Thrice-Weekly Journal will be published on *Monday, Wednesday and Friday* mornings.—The price will be

Single Copy—One Dollar for the Session,

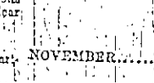
As usual, payable in advance. Any person forwarding us $5 shall be entitled to the ninth copy for his trouble. To any one who will send us $10 we will send two copies extra, for his trouble. Whoever shall send us $24 shall be entitled to three copies extra, and in like ratio for a larger amount.

☞ It is desirable that the names of subscribers accompanied with the money, may be forwarded at or before the commencement of the session.—*Money remitted by mail at our risk.*

STEVENS & BLAINE.

Augusta, Dec. 1856

New City Coach.



The subscriber is happy to inform his friends and the public, that he has procured, and will this day commence running, for their accommodation, one of the best and most convenient Hackney Coaches ever brought into this city, with an elegant team of horses; and that he will hold himself in readiness to execute promptly, faithfully, and in the most careful manner, any commands in that line, with which he may be favored.

Order Books may be found at the Express office of Messrs. Hodgman, Carr & Co. and at the Arcade House, (late Western Hotel,) corner Fourth and Union streets.

THE CONGRESSIONAL CORRUPTION CASE.—The indications are that the investigation now under way at Washington will be baffled by the refusal of important witnesses to testify—and that nothing will come of all the noise made, except perhaps the stoppage for the session of one or two of the western land bills. The New York Times correspondent, Mr Simonton, who made the public charge of corruption which led to the investigation, declines when put upon the witness stand to give his authority for the charge. This is on the face of it at least, a position not very creditable to him for say what we may about his information being confidential, and his honor being involved in the matter, no man has the moral right to cover up bribery and corruption or to withhold evidence from exposure where exposure is demanded by the interests of the people. Especially is this the case when possible who points the guilty eye to the villainy himself and then stands in the way of its development.

Mr. Hale's position is a correct one in a general view—that no man is bound to give information which shall criminate himself, but if we understand the matter this is not Mr Simonton's position. It cannot be his position, for if so he would have been the last man to call public attention to the villainies practiced as he says at Washington. Certain members of Congress appear to have made him a confident in certain dishonorable proceedings, and even to have consented his assistance in procuring pecuniary interest in certain bills pending; but we do not believe he was himself criminally or even dishonorably involved. The facts itself argues, that inasmuch as the evidence he could give would not amount to legal *proof* of the corruption, it ought not therefore to go to it. We do not so regard the matter. If any men has information which would carry even *moral* conviction with it, he is bound as an honest and patriotic man to lay it before the people. It is the *people's* tribunal before which the charge has been made—and the people do not desire that their corrupt public servants should escape moral and political condemnation out of regard for legal hubbubing. Let us have all the evidence there is.

FIRE.—Last evening about five o'clock a house owned and occupied by a Mr Martin on the West side of Kenduskeag stream, nearly opposite the College House was consumed by fire. The furniture was mostly saved. A spark from an airtight is supposed to be the cause. Loss about $500.

In the District of Passamaquoddy there were built in 1856, five at Portland six at Bangor and two at Belfast measuring in all 7770 tons. There were 8734 tons built in that district during the fiscal year ending June 30 1856.

The mercury attained a higher point yesterday noon of 12 degrees above zero, about the warmest weather for a week. In the morning it was 2° below and on two previous—in October no lower than from 10 to 9.

Dr Theobald, postmaster of Gardiner and for 2 years a practising physician there, died last week.

It is reported that persons crossed Belfast Bay from Belfast to Castine on the ice, on Saturday last.

Rev. John O. Lee lectured before the Augusta Lyceum on Friday evening last—Subject—"Fox Hall, Fox Rec."

SPECULATIONS ABOUT THE NEW CABINET.—The Washington correspondent of the Tribune writes thus:

Recent developments give reasonable assurance that Gen Cass is defeated for the Premiership. An immense adverse pressure has been brought to bear, which he could not resist. Mr Buchanan has said with a few days the could settle on a better line of State stories would follow naturally with in twenty-four hours. The Southern interest headed by Mr Toombs is rapidly formidable demonstration in favor of Mr Toucey in preference to Mr Clifford, as the New England man.

THE CITIZENS OF NEW YORK ARMING THEMSELVES.—The New York Mirror of Tuesday says that at the nightly occurrence of robberies and assassinations in the streets, with no particular notice taken of the outrages on the part of the authorities, has led to a bulk business in firearms and revolvers during the past week. There is not a street in the city that is safe after dark, and we have no sure chance about advising gentlemen to go armed. In walking to the Academy of Music on Saturday evening we chanced to join a couple of friends, one of them a distinguished government officer, and we found them both prepared for the "gentlemen." One had a dirk in his sleeve, and the other a six barrel revolver. The next step will be a Vigilance Committee, and the first work on hand will be to hang the authorities who are receiving a salary for protecting life and property and who spend their time seeking their own pecuniary advancement.

TAKEN CARE OF.—The New York Tribune of Wednesday said: There had been about a dozen fires in that city within the last twenty six hours, a number of which were caused by the proximity of wood work to pipes which were heated to an unusual degree in consequence of the cold weather. In Boston last Sabbath, no less than three churches got on fire from the same cause.

The rascals of New York have taken to begging the victims. On Thursday night, two of them drew a bag over the head of Thomas Hanna hauled him into a cellar on the corner of Irving place and Eighteenth street, and robbed him.

The State Reform School.

The Third Annual Report of the Trustees and Superintendent of this institution is received. The report of Dr Lincoln is comprehensive and interesting. It shows that the institution has been as fully productive of beneficial results as could be anticipated at this early stage of its existence. The expense of its establishment and maintenance has been considerable. But we believe the expenditures in its behalf are economical ones for the State—without taking into account the vast moral good effected. It is cheaper to prevent crime than to punish its perpetrators or to endure the infliction it inflicts upon society. For every boy taken from the haunts of vice and placed in the road to virtue, by means of the reformatory influence of his excellent School the State gains even pecuniarily far more than his proportion of the cost. A worthy and wealth producing citizen is raised up for the State, whom there would otherwise grow a moral pest to become a life long curse to the community—costing the State more in actual dollars and cents to follow him in his crimes and pay the expense of his prosecution, than all that is expended in the reformation of the boy.

We find that the School although crowded for a part of the time during the past year, (ending in November) was less so at the close than at the commencement. In December 1855 there were 231 inmates, in November 1856 there were but 219—the admissions during the year having been 81, and the discharges 96.

Many of those discharged have been placed in good situations, and upon it nearly all it is believed, the good influences of the institution and the orderly system of life required, have produced a permanent change of character—Some of course have proved who are exceptions but these per centage of such is small. By kind and judicious management such as we believe prevails at the institution, and by stimulating the honorable and manly qualities of the boys as the Superintendent informs us he has method, we are confident that nearly all who enter there may be reclaimed. Dr. Lincoln says that most of the boys shew unmistakable evidence of a real desire for reformation—a statement full of encouragement for the trustees and giving a hopeful view of human nature.

The experience of the year has shown that more confidence may be placed in the boys, and much liberty safely granted them by relying upon their sense of honor—thus shown that good influences and kind treatment alone needed to eradicate good and noble traits were only perverted and crime was previously manifested.

As to the statistics of the School—the table shows, as we have stated, that 81 boys have been received and 96 discharged or remanded and pardoned during the year—leaving 21 inmates on the 30th of November.

The new commitments have been from Penobscot and Piscataquis Court 8, Bangor Police 8, do Municipal 3, Brunswick 4, Police 2 Gardiner 4 Augusta 4 Bath 1 Rockland 1, Calais 4 By Justices of the Peace 28 by the Supreme Court 6.

The total admissions thus far from each county have been as follows: From Androscoggin 3 Cumberland 78 Franklin 7, Hancock 1 Kennebec 28, Lincoln 10, Oxford 4 Penobscot 7 Piscataquis 1, Sagadahoc 10 Somerset 11, Waldo 3, Washington 19 York 39.

The whole number discharged up to November last was 127 of whom 36 have been indented to farmers, and 12 to mechanics, 30 have been discharged on expiration of sentence—30 by order of Trustees—6 pardoned, 2 only escaped 2 died.

Of all the boys who have received the terms of sentence have been—114 during minority—for one year, 44 or two years 45 for three years 30 for four years 46 for five years, and a few for longer terms.

The principal causes of commitment have been—for larceny 181, vagrancy 41, common drunkards 40, truancy 12, assault 11, shop breaking 10.

Of the 346 committed up to November last, 226 are reported as born in the United States (250 in Maine) 19 born in foreign countries.

The ages of 329 of the boys were between ten and seventeen. Three were short of 7 years of age four at eight, six at 9.

Of these 346 boys (according to the moral statistics) 282 have been truants from school 209 roguish boys 237 idle, and so on.

The Superintendent recommends that the boys should be indentured as apprentices, as far as possible when discharged from the institution—as in that case the Board can retain a supervision of their welfare and see that they are properly treated. That the boys do better settled, in good homes in the country, has been satisfactorily manifested not only by the experience of our own Reform School, but by that of other Asylums of the same kind.

By an estimate made based on last years operations, the cost of feeding clothing, and educating the boys is 35 cents per day each.

This includes *all* expenses of the last tuition, and is to be reduced by the proceeds of the labor of the boys.

The boys work on the farm, and at mechanical and domestic employments and we think the earnings may yet be made to defray the largest part of the expenses, and thus make the institution mostly a self sustaining one.

During the past year 66 boys have been employed on the farm 63 in the shoemaker's shop 40 in the tailors, 30 in the chair shop and from 50 to 60 in domestic and other indoor occupations.

In the tailor's shop 6 258 articles were made and 46 808 articles repaired—including personal clothing, bedding, toweling table linen &c.

Most of the labor of cultivating the farm has been performed by the boys, and the produce raised is valued at $4 185. The boys have also done 673 days work (of six hours each) in making road, 570 in building wharf, 168 in clearing and dialling ledges, and about 400 in other out door employments.

Robert Adrian from Havana reports Dr Kane as improving in health.

Legislature.

MONDAY, Jan 22.

SENATE.—On motion of Mr Bothrop,

Ordered, That the Committee on the Judiciary be directed to inquire into the expediency of defining by law the rights of any person who shall perform labor or furnish material for erecting, altering or repairing any house, or other building, or appurtenances or furnish labor or material or the above purposes, by virtue of a contract with any person who may not be the owner of the land on which such house building or appurtenance is contracted to be erected, and the owner of such land, and that they report by bill or otherwise.

On motion of Mr Higgins, the following order, submitted by him some days ago, was taken from the table.

Ordered That the Committee on Banks and Banking be instructed to inquire into the expediency of refusing to no charter to any bank with a capital of less than $100 000.

Mr Higgins said there were 24 banks in the State, each with as small a capital as $50,000. In many instances two of these banks were located in the same place. The effect was not to increase the capital but to increase the circulation thus creating additional risk to the holders of the bills. There were, he knew, special reasons assigned for continuing these banks, such as the accommodation of friends &c. The public should be accommodated without regard to friends. He was aware also that the desire of officiating as Bank Director influenced the chartering of many of these small banks. Two of them would have 14 directors, whereas a Bank with $600,000 capital was often managed by five directors.

Mr Hoyt objected to the measure contemplated. There is already inherent power enough in our laws to end capital, without adding to it and giving it peculiar advantages by special legislation. The county of Franklin has a bank with $50 000 split and although that is not very large for a bank it is still of as much importance to the community in which it is located, as are the larger banks to the more populous and wealthy places where they exist. The effect of the law contemplated by this order would be to cut down this comparatively small bank, and oblige the people of that county to patronize some banking institutions in other portions of the State.

Mr Higgins thought the Senator from Franklin had misapprehended the design of the order. It was not a law in itself, and was merely intended to direct inquiry to the matter, and cause the Committee to look carefully into the subject. As to the power of wealth he would remark that a certain bank in this State with $75 000 capital had $8 000 in circulation, whereas another certain bank with $200 000 capital had only $73 000 in circulation. One pays a State tax of but $750 the other pays $2 000 and yet the small one has nearly $20 000 more in circulation.

Mr Hoyt did not doubt that the Senator from Lincoln was entirely sincere in his proposition to relieve this to a Committee, but in due course, wished the Committee to report favorably upon it.

Mr West was aware that the Banking system of the State might require some improvement, and some additional safeguards but he did not think that at the desired object could be attained by following the plan marked out in the order of his colleague. He did not think it met the exigencies of the case. According to his observation, the small banks were as safe and do as much for the interest of the communities in which they are located, as any of the larger banks. In fact almost entailed in saying, they did more. The Bank of Lincoln and the Auburn Bank both exceed $100,000 in capital were safe, reliable institutions and greatly subserved the interests of the localities in which they are located.

Mr Magoun remarked that the Topsham bank had only $15 000 in circulation, and the Auburn Bank was retained up to the last dollar. Both of these were good banks, but how, he would ask did it stand with the Canton Bank and the Exchange Bank? Those presented a somewhat different aspect. His order, however, he would add, remark, was only of inquiry, and it could not be treated, it was but directory.

Mr Herrick thought the order unexpedient because it would get up some feeling between larger and smaller places, and such jealousies would not lead to good results. The country banks are generally very safe. The stockholders are from the solid farming population, and there is nearly always a large number of them. As a rule I thought the committee was great enough banks of this kind than to any other. The Senator from Lincoln had mentioned the case of the Canton Bank and the Exchange Bank. He thought a good object would have been attained if the Senator's order had directed the Bank Commissioners to inquire whether in the vicinity in which any bank was proposed to be located but legitimate employment of capital for banking purposes. A bank in a go ahead county, with a capital of $100 000, was perhaps in not much better condition than one with a capital of less than that.

Mr Hollowell said

Mr PRESIDENT—I am opposed to the passage of the order, for I can not think a sufficient reasons have been given for the change.

I see in looking at the Bank returns, that one half of all the Banks in the State would thus be proscribed. The whole number of Banks in the States 70, and of one half that number the capital is less than $100 000 each.

When these Banks were chartered, it was supposed good and sufficient reasons were given for doing it and such reasons can be given for the change it ought not to be made. The amount of capital was then considered as well as the locality of the Banks, and it is but reasonable to suppose that the Legislature acted wisely and understandingly.

I can imagine that a Bank of $50 000 in some thriving village may be as useful to that community as a much larger one in a larger place. I would not therefore, desire to see so much as to the *alleged* as to the *actual* capital. A Bank with $50,000 actually paid in for the purpose of loaning money may be quite as useful to the community as one of $100 000 even with the privilege of borrowing. Here is where the discrimination should be. Besides I think the purpose should be indicated in the order. It is to be to reduce the Banking capital, let it be so understood. If it be not explained to change the system and adopt some other, *let that be avowed*. I would not pull down a comfortable dwelling without substituting at least a shed, to protect us from the inclemency of the weather.

The order was refused a passage.

Mr Hersey reported that he had delivered the message with which he was charged in reference to the Governor and Council of the election of Hon Hannibal Hamlin to the U S Senate for six years from and after the 4th of March next.

Ordered—On motion of Mr Morrison of Farmington,

Ordered, That the Committee on the Judiciary be directed to inquire into the expediency of altering or amending chap 26 of the Public Laws of 1847 entitled An act regulating elections of Electors of President and Vice President, in such manner as will prevent the vote of a city, town or plantation being infected, because of its not being returned by a certain day named in said law.

On motion of Mr Woodman of Bucksport,

Ordered, That the Committee on the Judiciary be directed to inquire into the expediency of providing by law that, in case of the death of a married woman, possessed of real or personal estate, not disposed of by will, and leaving a husband, that he shall be entitled to the same portion of said estate in the distribution thereof that a widow now has in the estate of her deceased husband, and of further providing by law that, in all respects, the survivor, whether husband or wife, shall be entitled to an equal in quantity or proportion in the estate, real or personal, left by the other.

[From the National Anti Slavery Standard.]

BARBARITY IN KENTUCKY.—Portsmouth O., Jan 7, 1857.

Happening to have occasion to visit Carter County, Ky, last week, I was made the unwilling witness of a scene of barbarity that would have made the blood thirsty Nero tremble. It seems, from what I afterwards learned, that the slaves of one William McMinnis, quite an extensive farmer of Carter County, were suspected of being engaged in some conspiracy to rise upon a certain night, and in connection with the slaves upon an adjoining farm, murder the white people. This report having gained credence, the slaves were arrested and tried by one of those mock courts so common in the southern country. One negro, who was supposed to be in the conspiracy, was closely questioned and threatened with severe punishment in case he did not reveal the whole affair. The negro stoutly denied having anything to do with such a proceeding disclaimed any knowledge of such an insurrection and begged to be released. But he was doomed to be tortured until he confessed.

In order to intimidate the other slaves it was deemed necessary to torture this miserable creature before their eyes. Accordingly, he was stripped—the weather being cold—and then he received 200 lashes on the bare back. Still the negro swore that he knew nothing about the insurrection. Not yet satisfied, these inhuman monsters excited as it were by the blood they had already drawn, proceeded to tie him to a stake, with the evident intention of burning him. When told he was next to be burned, the screams of the poor creature were indeed terrible and heart rending, but despite his entreaties and cries, a pile of dry wood was heaped around him, and again he was told if he would not confess he would be burned to a crisp, still he refused, when the pile was lighted, and he began to blaze around the victim. Unable to witness such unexampled cruelty, I rode away and made an effort to get some authorities to go and stop the inhuman proceedings but was told to "mind my own business." I learned afterwards that the negro was actually burned to death the next day.

Scenes like this have occurred in this section of Kentucky before, but the newspapers studiously avoided publishing the account of them and they remain unheard of. I can some humane passer by happ ne to witness them.

I remain, yours truly,

JORG KINGSLEY.

AMERICAN SHOT IN PARIS.—The London correspondent of the Boston Post gives an account of the shooting in a Parisian garden of Charles Morey, formerly of Boston, a native of Barnstable. Morey was confined on the debtor's department of Rue de Clichy. All that is now known on the subject of his death is that he was standing looking out of his prison window in the third story when the sentinel on the ground about eighty yards distant ordered him away from the window, and on his not obeying the order shot him dead on the spot. Curiously enough Mr Morgan is investigating the matter. It is said that he was to be released the following day having made an arrangement with his creditors.

A SIX WEEKS RAILROAD BLOCKADE.—The Galena Branch of the Illinois Central has for six weeks been closely blockaded. This has created no great inconvenience and loss. Most of the engines of the road are disabled at present far distant from the machine shops and no fire has passed over the track in all this time. The Chicago Press says many were relying upon the road for the reception of merchandise and the shipment of produce. Others were relying upon it for keeping them supplied with coal from the La Salle Mines.

A NOTORIOUS Somemonth since a poor German neighbor of Gerrit Smith was charged with murder. A singular combination of unfavorable circumstances induced a general belief that he was guilty, and the public excitement against him was very strong. Mr Smith stated that supported man in the jail, and became convinced that he was innocent. In the face of public public sent me to Po voluntered his services as counsel for the German, spent nearly a thousand dollars from His own purse in collecting evidence, and argued his case before the jury. By his untiring exertions the dark cloud of unfavorable circumstances was cleared up, and the innocence of his client manifest not only to the court and jury, but to the public. Mr Smith, with characteristic generosity has crowned his magnanimity by giving the poor German a small farm and two hundred dollars in money.

A singular incident is mentioned as having occurred about twenty five miles from Rome at a country place called Sabina, near the Fucine district. Some laborers were at work in a bare open field, when they suddenly felt a shake or of the earth, like an earthquake which caused them to run off to a distance. Then they saw the earth open in the place they had left, and a black smoke rise up. The surrounding ground seemed to fall in, and the place filled with water forming a lake of about 1000 metres which has been increasing daily in size ever since. The water is salt, and the general impression is that the hollow thus filled is the mouth of an extinct volcano.

A LAWYER AT FAULT.—Everybody in Philadelphia knows or has heard of Go Heb Sheer, a tall redhead, well formed German with a genial twinkling eye, and a look that tells you quite distinctly as language, that he knows a thing or two. Being called upon the stand as a witness in one occasion, he was cross-examined rather severely (as the story goes) by Mr Dallas, who expected to make out a strong point by eliciting something from the following questions:

"Were you at Harrisburgh, Mr Scheerer, in Dec mber?"

"At Harrisburgh in December, did you say, Mr Dallas?"

"Yes sir, I said at Harrisburgh in December."

Putting his head down thoughtfully for a moment he replied

"No sir, I was not."

"Were you in Harrisburgh in January, Mr Scheerer?"

"At Harrisburgh in January, did you say, Mr Dallas?"

"Yes sir, in Harrisburgh in January."

"No sir, I was not."

"Were you in Harrisburgh in February Mr Scheerer?"

"Did you say at Harrisburgh in February, Mr Dallas?"

"Yes sir—and answer me if you please—I said at Harrisburgh in February."

Relapsing into a thoughtful mood for a moment, he replied, "No sir, I was not at Harrisburgh in February!"

Getting somewhat out of patience with him, Mr Dallas elevating his tone, demanded

"At what time, then, sir, were you a Harrisburgh?"

"At Harrisburgh? At Harrisburgh, Mr. Dallas? *I was never at Harrisburgh in my life, sir!*"

Five noblemen—the Marquis of Breadalbane, the Duke of Argyll, Southerland and Buccleuch—are said to own one fourth of the land in all Scotland.)

The attack on Canton by the British has caused an advance of five cents per pound in tea, in Boston.

BILLS OF CHINA BANK.—The bills of China Bank are now redeemed at the People's Bank in Waterville, or at the office of Z Washburn, Esq., in China village, where the bank was located. Also at the store of G P. Gilman 38 Gold st, N York. Said Bank surrendered its charter to the Legislature of the State of Maine two years ago. The Canton Bank was another corporation, chartered afterwards, and located at South China, eight miles below.—*Watervile Mail.*

It is stated that Senator Seward of New York and Rusk of Texas will, on the expiration of the session, start on a nine months tour round the globe. They will "pass across the Isthmus by Nicaragua, thence to California, thence to the Sandwich Islands, where Senator Seward will deliver an agricultural address thence to China, after passing through India and Asia Minor, Egypt, and possibly Southern Europe, will sail through the Straits of Gibraltar to the United States, in the early part of next season.

PENNSYLVANIA.—CREDIT.—Notwithstanding the unprecedented scorchings that Sidney Smith gave Pennsylvania years ago, for repudiating her State debt the Pennsylvanian now announces that a daughter of Sidney Smith, not long since, invested $30,000 in the same stock for fair or denounced in preference to an investment in any other class of securities.

The Swiss residents of New York held a mass meeting at Delmonico's on Saturday evening which was brim full of enthusiasm for fatherland, and of defiance for its oppressors.

SPECIAL NOTICES

$2 per square for three insertions—$1 a week for continuance.

Druggists and Apothecaries

nov17 No 8 Corner Bank Block

From Dr Isaac Lee well known as a Botanic Physician who has had a large practice in this city and vicinity.

BOSTON Oct 24 1848

DR HAY—Sir—Sir I feel has been at all in favor of my friendly aid and Physician that I do not know anything that I can say will add to the high reputation but it may name is of any service in the recommendation you are at liberty to use the same.

Yours &c. WILLIAM I EACH

No. 15 M ont Street.

DR STORER'S LIQUID CAUSTIC.—Somebody says that the American consume more medicine than any other nation in the world and the assertion is undoubtedly true for besides supporting an army of physicians—"regulars and quacks"—we swallow every kind of nostrum that is put into the market no matter whether it comes from a white man or a fool. There are however several standard medicines which, the longer they are used the more popular they become and among this number we know of none that so well enjoys the confidence of the public as *Dr Storer's Liquid Caustic*. It is particularly recommended for rheumatism neuralgia pains in the head side stomach and the various prevailing forms of disease and so soon as the first and especially the last need for the eradication of humors from the blood.—[American Citizen, Lowell.

A LONGSTANDING MALADY from Consumption the dreaded scourge of America may be averted by the timely use of Mrs M N Gardner's Indian Balsam of Liverwort and Hoarhound, the greatest blessing ever bestowed to mankind. A medicine unrivalled in the annals of the healing art, which has received the sanction of the faculty in desperate cases. This celebrated Balsam is sold at 134 Washington street, Boston, Weeks & Potter, General Agents.

J S Ingraham, Agent for Bangor—H H Hay, Portland, Stand Agent. 1y53

CHOLERA.

A Certain Cure for this Disease may be found in the use of PERRY DAVIS'

VEGETABLE PAIN KILLER.

DURHAM, Iowa, May 5 1856.

Gentlemen—I feel indebted to you for it has been but I have recovered from your invaluable Pain Killer. We have had some cholera here on the Mississippi this early in the season. A few days since I was called in to see a gentleman who was supposed to have cholera. I gave him a dose of your Pain Killer, and in a few minutes he was relieved. I then gave him another dose, and in a few hours he was entirely recovered. I have given it in many cases of Cholera Morbus, Diarrhœa, Dysentery, Colic, Cramps, Pain in the Stomach, Sick Headache, Sour Stomach, and in fact in all cases of Bowel Complaint, and it has never failed to relieve. I have recommended it to many others, and they have found relief. I have also used it in Fever and Ague, and in Typhoid Fever, and it has never failed to relieve. I have also used it in Rheumatism, Sore Throat, Croup, Pneumonia, Influenza, Asthma, and Bronchitis, and it has never failed to relieve. I have also used it in Piles, Hemorrhoids, Colic, Cramps, Pain in the Stomach, Sick Headache, Sour Stomach, and in fact in all cases of Bowel Complaint, and it has never failed to relieve

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER.

Congress.

WASHINGTON, Jan. 25.

SENATE. Mr. Wilson gave notice of a bill to secure to actual settlers the alternate sections of lands reserved in grants to States for railroads.

After a debate, the Senate passed the bill on motion of Mr. Seward, it was resolved that the Secretary of War be required to detail topographical engineers to inquire and report whether public interests will be promoted by a survey of the Niagara River, or any part of the same.

Adjourned.

HOUSE.—Mr. Chester appeared, purged himself from contempt, and was discharged from custody.

Thursday and Saturday were set apart for the consideration of business relative to the territories, as the two former days specified for that purpose were absorbed by questions of privilege.

Discussion of Mr. Quitman, the House and the suspension of the rules, passed the bill creating the pay of commissioned officers of the army and military storekeepers $2000 a year, and commutation to 30 cents a ration.

The bill to enable property to a considerable extent, belonging to an emancipated slave, who had died intestate, to descend to his slave wife and children, was passed, their owners being willing to set them free.

Provision for this act is a belief that the property, under the laws of the District of Columbia, rests in the United States without such legislation.

Adjourned.

The Weather,

BALTIMORE, Jan. 26.

The weather was intensely cold this morning, the thermometer indicating 5 degrees below zero.

We have received no mail from the South to-day.

There is no prospect of the Orange & Alexandria Railroad resuming travel for the present.

Mrs. Wirt, wife of the late William Wirt, died at Annapolis yesterday.

Telegraphic Feat.

The following message was transmitted over the wires of the American Telegraph Company and others connecting with the lines of that company, from St. Johns, N. F., to Washington, with the ordinary repetitions, ahead of time. It was received at Washington, nearly 2000 miles distant, apparently 10 minutes before it was sent:

St. Johns, N. F., 11 A. M., Jan. 26.

The Legislature of this Colony will be opened on Thursday next. The Atlantic Telegraphic cable will form a prominent topic in Governor Darling's speech."

It was received in Washington at 10.50 A. M.

From Washington,

WASHINGTON, Jan. 26.

Mr. Chester, for a few moments only, was before the Select Committee this afternoon, but was unable to throw light on the subject of investigation.

Probably the examination of witnesses will be completed the present week.

It is said the testimony of Mr. Sweeney, ex-United Doorkeeper of the House, and Mr. Triplett, two of the witnesses indicated by Mr. Simmons to the committee, is the most important yet elicited.

The committee on elections will act definitely next week on the Kansas case. The best impression seems to be that they will report that the seat should be vacant, on the ground that the House by a large majority at the first session refused to admit either Mr. Whitfield who was elected under the Kansas laws, or Mr. Reeder who was elected by persons who did not recognize them, and that there is no resolution in the House or any law for Kansas to elect a special election to fill the vacancy.

The House was officially informed to-day, that the President has approved the Compulsory Witness bill.

Hon. John Mason, Ex-Member of Congress, long known to the political and fashionable circles of Washington, died this morning.

Mr. Simonton has engaged Mr. Bradley of Washington as his counsel.

Markets.

NEW YORK, Jan. 26.

Flour closes steady—com. to strait state 6,35 a 6,50; upper lake 6,55 a 6,85; common to good Ohio extra 6,85 a 7,10; extra Genesee 7,25 a 8,50. Southern heavy—mixed to good 7,30 a 7,75; fancy and extra 7,80 a 8,10.—Canadian quiet—Superfine 6,60 a 6,80; extra 7,00 a 7,75.

Wheat firm but quiet—St. Louis red on private terms.

Beef firm—country mess 10,50 a 12,00; prime 8,50 a 10,25; repacked Chicago 15,00 a 15,50; prime mess steady.

Coffee dull—Rio 10¢; Java 14¢.

Sugar firm—Muscovado 9 a 10.

Molasses quiet.

TELEGRAPHIC SUPERINTENDENT. The many friends of Mr. James S. Bellow of this city will be pleased to learn that he has been appointed Superintendent of the telegraph line east of Boston by the American Telegraph Company. Mr. Bellow has been the managing clerk on the Telegraph Office in this city for several years past—he is in every respect admirably qualified for the new position, and the appointment will, we have no doubt, give entire satisfaction.

Mr. Wyman has held the office since Mr. Eddy left Maine, and has given excellent satisfaction, but ill health obliged him to resign.

The steamer North America left Portland for Liverpool on Sunday, notwithstanding the ice in the harbor. They have been able to keep a channel open thus far.

Fire in East Boston. The Maverick Block in which was the Maverick House, occupied by Mr. O. H. Hinkley formerly of Hampden, was nearly destroyed by fire on Sunday morning last. Loss $40,000! Mr. Hinkley's loss was about $5000; of which $2900 was covered by insurance.

MINIATURES.

The subscriber, being now completely settled in his new Rooms,

NO. 34 MAIN STREET,

with every facility for producing Likenesses in the most approved style, takes this occasion to express his thanks to his friends which have heretofore been bestowed upon him, and will be pleased to receive a continuance of the same at his new premises. Takes the much admired

The Wonder of the Age

NO PAY

IF DR. TOBIAS'S CELEBRATED VENITIAN LINIMENT does not cure Cholera, Dysentery, Colic, Cramp, Cholera Morbus, Diarrhœa, Vomiting, Mumps, Toothache, Headache, Cramped Hands, Cold Feet, Musquito Bites, Insect Stings, Chronic Rheumatism Swellings, Old Sores, Cuts, Burns, Bruises, and Pains or Weakness in the Limbs, Back, or Chest.

NO HUMBUG—TRY IT.

Dr. Tobias has warranted his Liniment for eight years, with never having a demand made for the return of the money—all that is asked is to use it according to the directions.

NO ONE WILL EVER BE WITHOUT IT

after once using it. If you do not find it better than any thing you have ever tried before

GET YOUR MONEY RETURNED.

Thousands of certificates have been received speaking of its sure virtues. Now-a-days it is the practice to fill the papers with certificates from unknown persons; or given by those who have never used the medicine—now, Dr. Tobias offers to pay

1000 DOLLARS

to any one who will prove that he ever published a false certificate during the time he has had his medicine before the public.

Call on his agents and get a pamphlet containing genuine certificates.

Price 25 and 50 cents. Sold by the Druggists and Patent Medicine Dealers throughout the United States.

Also for sale, DR. TOBIAS'S HORSE LINIMENT, in pint bottles, at 50 cents. Warranted superior to any other.

DR. TOBIAS'S Office, No. 50 Courtlandt-st. N. Y.

Sold, wholesale and retail, by BANGS, PERKINS, Langor; Chas. Fisk, Oldtown; S. Libby, Orono; I. Curtis & Son, Hampden; J. Atwood, Jr., Frankfort.

DeGumon's Improved Non-Explosive Camphene & Fluid LAMPS and CANS.

HAVING purchased the Patent Right for the State of Maine, for the above Lamps, I am now prepared to offer them to purchasers in every variety, adapted to the use of Parlors, Churches, Stores, Factories, Vessels, Steamboats and Railroads.

These Lamps are constructed on silent fluid philosophical principles, and are the only sure prevention against explosion from Camphene and Burning Fluids, being made of fine, neat durable materials, not subject to accident from breakage or corrosion—will burn freely without smoke, giving an equal and steady light, (the nearest to gas ever produced.)

The above Lamps have proved, after four years trial, to be the best Lamps in use, giving universal satisfaction, and proving perfectly safe.

These Lamps will be sold at wholesale or retail on as low terms for cash or approved credit as can be had elsewhere in the State.

Call and see them at my Rooms, No. 10 *West Market Square*, Bangor, Me., dealer in Lamps, Chimneys, Oil, and Crockery Ware.
